

POHJOIS-HAUKIVESI WATER AREA PARTNERSHIP

WELCOME TO FISH!

Haukivesi is one of the wider sections of Lake Saimaa, Finland's largest lake. For fishers, Haukivesi offers fishing opportunities for numerous different fish species and fishing methods. The Pohjois-Haukivesi water area partnership manages extensive and diverse water areas covering a total of 12,300 hectares in the northern parts of Haukivesi and the surrounding small bodies of water.

Further information can be found on the partnership's website:

<https://www.pohjois-haukivesi.fi>

More information on fishing in Finland:

<http://www.fishinginfinland.fi/en>

In Finland, all fishers who are aged between 18 and 64 need to pay annually the national fisheries management fee. This entitles you to use a single rod and lure throughout Finland, with the exception of running waters and other special fishing sites. Further information on the fisheries management fee:

<https://www.eraluvat.fi/en/fishing/fisheries-management-fee.html>

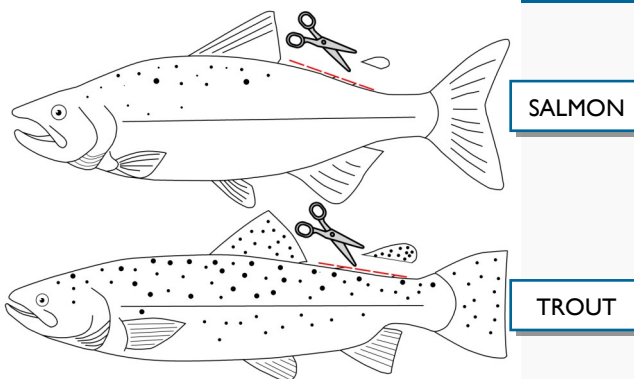

Other types of fishing, excluding ice fishing and angling, also require in Finland a permit from the owner of the water area. Pohjois-Haukivesi water area partnership sells net fishing and spin fishing permits for their area, which you can only purchase from the **Kalakortti.com online store**.

FISHING PERMITS AND RESTRICTIONS

Species	Min. catch size	Notes
Pike-perch	42 cm	
Trout (adipose fin clipped)	60 cm	
Landlocked salmon (adipose fin clipped)	60 cm	1 fish / day / fisher

Stocked trout and landlocked salmon have had their adipose fin removed. This fin is located near the tail on the back of the fish.

You can only take a fish that exceed the minimum size and which have had their adipose fin removed as a catch. Natural trout, landlocked salmon, and charr are protected species and must be released regardless of their size and condition.

Guest permits	Price	Additional information
Trolling, year	60 €	No rod limitations
Trolling, month	30 €	No rod limitations
Trolling, week	10 €	No rod limitations
Trolling, day	7 €	No rod limitations
Net / fish trap	6 €	Max. 3 units / fisher

SAIMAA RINGED SEAL (*Pusa hispida saimensis*)

The Saimaa ringed seal, an endangered seal species, is found in the Saimaa area. If you pay close attention, you can also spot these seals here at Haukivesi.

PLEASE NOTE: Fishing is restricted in order to protect the Saimaa ringed seal also in the area of the Pohjois-Haukivesi water area partnership. Familiarise yourself carefully with the restrictions and protection measures before going fishing and, if necessary, ask for more information.

Further details on the restrictions and further information about the Saimaa ringed seal:
